CAMPAIGN FOR

MERCURY FREE DENTISTRY

A PROJECT OF CONSUMERS FOR DENTAL CHOICE

The American Dental Association doesn't want you to see this.....

On Thursday, the widely-watched *Dr. Oz Show* aired “Are Your Silver Fillings Making You Sick?” – an episode devoted to telling consumers the truth about dental amalgam. [Watch](#) Dr. Oz, mercury-free dentists, and even audience members roundly condemn the continued use of mercury-releasing dental amalgam. You can watch the full episode at www.doctoroz.com/episode/are-your-silver-fillings-making-you-sick

It is heartening to see all the doors – including now, the mainstream media – that have opened in the wake of our movement's success in getting dental amalgam into the mercury treaty. We couldn't have come this far without your support!

As more dental consumers learn the truth, the American Dental Association (ADA) is manning the barricades. In a desperate “issues alert” to its members, the ADA attacks the *Dr. Oz Show* and insists that dentists simply repeat the usual propaganda to concerned patients (but never telling dentists to say the “M” word: Mercury). The ADA's overreaction makes clear: they are losing and they know it. We are winning the battle for mercury-free dentistry!

Folks, you don't want to miss this [Dr. Oz episode](#). Share it with your friends, colleagues, and family. Everyone deserves to know that amalgam fillings are MERCURY!

Let's all show Dr. Oz how much we appreciate his episode spotlighting the dental amalgam problem. [Click here](#) to say, “Thank you, Dr. Oz for courageously speaking out about mercury fillings”!*
